California sues ExxonMobil for misleading public on plastic recycling

SEPTEMBER 23, 2024 · 2:27 PM ET

By Alejandra Borunda, Michael Copley

California's new lawsuit says that ExxonMobil has known for decades that recycling would not effectively stem the flow of plastic waste. Despite that knowledge, the lawsuit says, the company actively promoted recycling as a viable solution to plastic pollution.

How do you sell
sustainable web
development
internally?

Performance

Look for ways to improve performance while reducing the amount of energy your site uses.

Performance

Look for ways to improve performance while reducing the amount of energy your site uses.

Large sites like Amazon or Walmart have found that each 100ms delay on their sites leads to 1% less sales.

Performance

Look for ways to improve performance while reducing the amount of energy your site uses.

Large sites like Amazon or Walmart have found that each 100ms delay on their sites leads to 1% less sales.

Regulation

Countries are enshrining their climate goals into law. Consequently, in order to do business with these countries, you will need to show your commitment to sustainable practices.

Performance

Look for ways to improve performance while reducing the amount of energy your site uses.

Regulation

Countries are enshrining their climate goals into law. Consequently, in order to do business with these countries, you will need to show your commitment to sustainable practices.

The  Gov already requires this and  Gov has published their strategy.

Certification

Some companies require ISO14001 certification in order to do business with them.

Certification

Some companies require ISO14001 certification in order to do business with them.

Having these environment certifications can give you a competitive advantage when landing deals.

Certification

Some companies require ISO14001 certification in order to do business with them.

Having these environment certifications can give you a competitive advantage when landing deals.

Branding

It's crass but branding works. Otherwise, manufacturers wouldn't slap a "lite" label on all those products in the grocery store.
